APOLLO COMET SCREEN INKS

APOLLO COMET is a press ready 4 colour process ink system. These inks possess outstanding screen stability, give superb half tone detail definition fast, drying properties and excellent self-solvency. Comet inks have a non-reflective satin finish that is ideal for high quality reproduction.

These inks can be used on most papers and boards using manual or semi-automatic production methods.

PRINTING & MILEAGE: All types of stencil are suitable. 90 – 140T monofilament meshes for best results. Using a 120T mesh, coverage of 70 – 75 sqm/kg can be expected.

THINNERS:

Gel Retarder	R146
Fast Thinner	R55
Retarder	R27

DRYING: Air drying times of around 10 – 15 minutes depending on stock and shop conditions. Approximately 15 seconds at 30c through jet dryers.

USES: High quality 4 colour process work on paper and board.
