RUB REMOVABLE SCREEN INKS

RUB REMOVABLE inks have been specially designed as opaque inks which can be printed over offset printed lottery tickets but can be readily removed with a coin or fingernail to display the following properties:

- Opaque
- Remove cleanly without smearing
- Excellent screen stability and low odour
- Fast jet or air drying
- Suitable for hand and fully automatic equipment

PRINTING & MILEAGE: All stencil materials are suitable except Stenplex Amber and solvent adhering films. Meshes No 62 – 77T monofilament are recommended. Using a 77T mesh should give coverage of 35 Sqm/kg

THINNERS:

Thinner	R55
Retarder	R27

DRYING: 20 seconds at 140 °F. Air dry between 10 and 15 minutes in normal conditions. Temperatures of 70 °C should not be exceeded, as removability may be impaired.

USES: Suitable stocks include aluminium foil or polyethylene laminating boards and cast coated boards such as Chromolux, Astralux, etc.

Prints on suitable materials will remain readily removable for one year after printing. Prints should be stored in a cool place away from direct sunlight.
